

Effective 7/1/2016

15A-3-204 Amendments to Chapters 16 through 25 of IRC.

A new IRC, Section G2401.2, is added as follows: "G2401.2 Meter Protection. Fuel gas services shall be in an approved location and/or provided with structures designed to protect the fuel gas meter and surrounding piping from physical damage, including falling, moving, or migrating ice and snow. If an added structure is used, it must provide access for service and comply with the IBC or the IRC."

Amended by Chapter 249, 2016 General Session
